

Bonus Terms and Conditions

Please familiarize yourself with all our official bonuses and rewards programs.

The Company offers a variety of attractive Bonus programs to its new and existing clients, who have activated their trading account. Bonuses and/or financial awards and/or Promotions (“Bonuses”) rewarded to Clients are part of the Company’s Promotions program. These Bonuses are limited-time offers and their conditions can be subjected to changes upon written notice given to Clients upon modifications to substantial parts of the conditions agreement. Prior to accepting any Bonus offers, Clients will be given the opportunity to consider the terms & conditions associated with each Bonus scheme to fully understand how the scheme works (as well as its T&C) and provide their consent regarding the acceptance of any possible alterations.

The Clients are not required to accept any Bonuses offered by the Company; all Bonuses are optional. If the Clients will choose not to accept a Bonus, under these circumstances, the Clients will not be bound to the terms & conditions relating to that Bonus. By accepting the offered Bonuses, the Clients will be bound by the guidelines, provisions, and terms of the Bonus programs, only if they have fully understood and agreed to the terms and conditions of this agreement.

Bonuses and Promotions may come from time to time alongside a volume or trader point requirement, given that requirements vary depending on Bonus and Deposit amounts. The different Bonus programs and Promotions are given at random events and will be added to the clients trading account in one of the following forms:

Pending Bonus:

Pending Bonus will be added to the trade account balance only after the required trading points have been accumulated. As the company does not wish to restrict a trader’s account, up until the requirement has been

met, Bonuses will be kept separate from the trader's initial funds. With the Bonus being separated from the trader's initial funds, the trader can withdraw their funds at any given time, in accordance with customary withdrawal terms.

Note that each Bonus has its own specifications for trader points and expiration. To find out more details, view your Bonus Report.

1 Trade on Us:

1 trade on us is a reward granted to eligible investors. It functions in accordance with the simple principle: your account manager familiarizes you with the guaranteed 1 trade on us Bonus, which works in the event the first closed trade, which was placed after the initial (or relevant) deposit, was not beneficial.

If the first closed trade, which was placed after the initial (or relevant) deposit, is successful, then the 1 trade on us is void. This Bonus expires in 10 days (including weekends) after the initial (or relevant) deposit. If the trader becomes eligible for the 1 trade on us, it will be credited to their account upon request, or in some cases within 14 business days after the closure of the non-beneficial trade.

Birthday Bonus

The Bonus is offered as a daily e-mail to those clients, who maintain a real and verified account, on the day of their birthday and for the period of seven (7) days from the day of their birthday.

1. Clients who deposit the minimum amount of \$/€/£ 250 receive:
 - I. 20% trade on us
 - II. 50% discount on account types
2. New clients: 200% Welcome Bonus (pending) on first deposit.

The bonus is added to the trading account and can be withdrawn only when appropriate trader points have been acquired. If the client had an active bonus before accepting the new bonus, the trading points for each bonus will have to be completed before any of them can be released.

***Trader Points**

Traders points are trading volume indicators. They are calculated per traded position amount and are accumulated upon closing of your CFD.

Calculation method:

1. For example: You bought 100,000 EURUSD, the value of the position is converted to your account nominated currency. Therefore, if your account currency is USD, the value of the position will be converted to USD using the real time EURUSD conversation rate. Let’s assume the EURUSD conversation rate is 1.07 therefore $100,000 \text{ EUR} * 1.0700 = 107,000 \text{ USD}$. The USD (\$) value of the position is now multiplied by 0.001%, which eventually entitles you with 1.07 trader points ($107,000 \text{ USD} * 0.001\% = 1.07 \text{ trader points}$).
